

IMA INTEGRATED SOLUTIONS

#47 years as protagonists

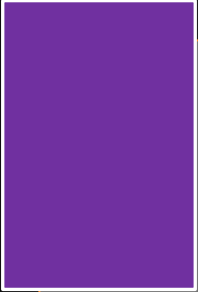

1977 - 2026

IMA WHO WE ARE

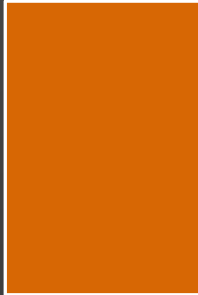

- For **49th** years we have been dealing with the **production of machinery and systems for the Clothing Industry** and not only, an experience that has allowed us to strengthen our leadership in the national and international markets.
- Ranges of the cutting edge and integrated solution with **spreading** and automatic **cutting** systems, **handling** and **management systems** of the cloth rolls, **labelling** and **software programs** for the complete organization in the **Cutting Room**.

IMA WHAT WE DO

IMA SYNCRO CUTTING ROOM

CAD

Digitizer

DigitPen

Intelly-System

A line of products entirely dedicated to design. From the **CAD MAXIMA** for the realization of the pattern, the development of sizes and the nesting to the fixed acquisition systems (**Digitizer**) or portable (**DigitPen**), up to the drawing plotter and cardboard cutting.

Totally digital range, with advanced diagnostics, productivity control in real time, remote assistance, maximum working precision (in MILLIMETERS).

Only top performance for this labeling model which is the result of very accurate selections in terms of reliability, precision and speed.

Fully digital machine with advanced diagnostics.

Tempest Plus
cutting height 3cm

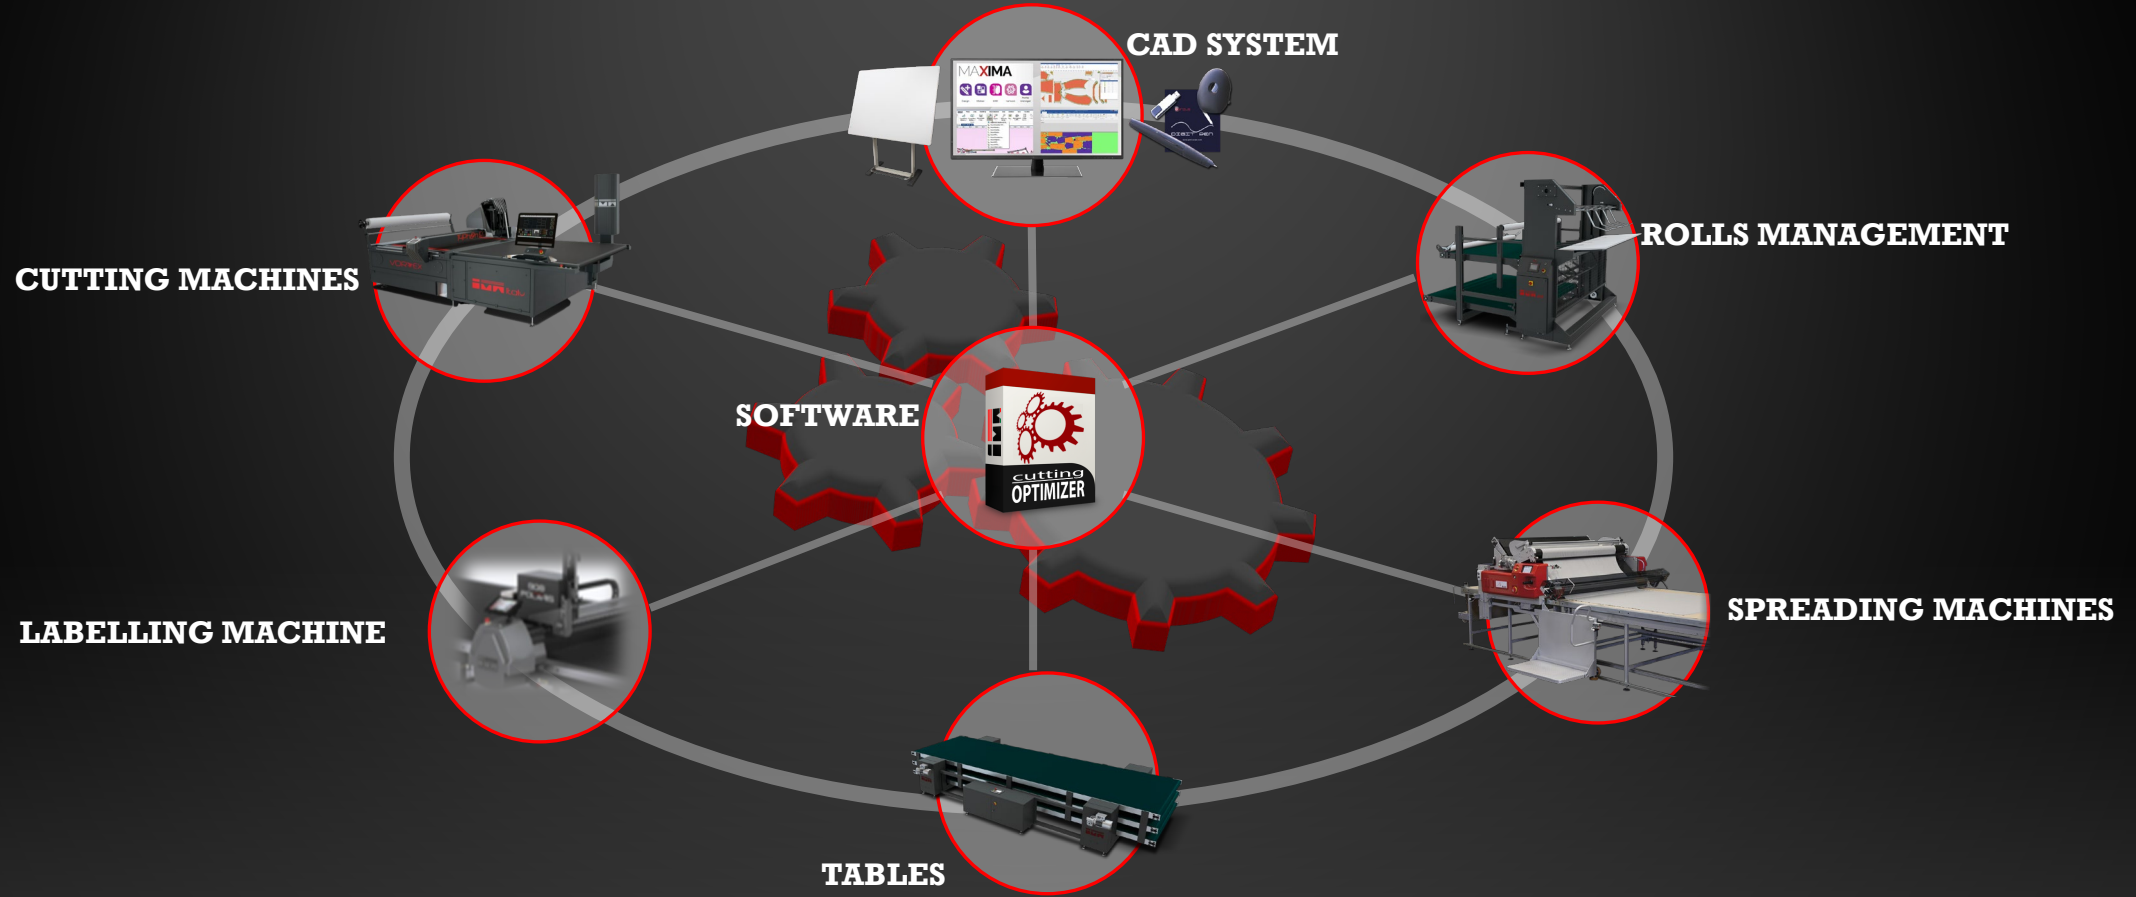

ZEPHIRO 5
cutting height 5cm

Typhoon 7/10
cutting height 7cm & 10cm

Automatic cutting units with fully DIGITAL technology, unrivaled performance and simplified management thanks to a clear and intuitive interface.

IMA SELLING POINTS

APPROACH AS CONSULTANTS AS WELL AS SUPPLIERS

1. Devising the optimal solution for each customer by evaluating:
 - Economy of time
 - Fabric Economy
 - Maximum Cutting Quality
2. All cycle steps are important, not just automatic cutting.
